Subject: Thank you for hospitality.

Dear Robin,

I would just like to thank you so much for your hospitality whilst Wendy and I have been here enjoying your wonderful city of Fort Lauderdale.

I really don't think that we could have achieved all that we have in just a few months had it not been for your help and assistance. Both Dan and Shaun seem very settled in their new office and although I haven't seen their apartment in Camden, Las Olas they have assured me that it is just perfect. Many thanks too for your introduction to Larry Behar who has just been amazing, as you know he has been liaising with our Group Financial Director in the UK, Mark Champion, who tells me that without his help we would not have progressed as quickly forming the company and obtaining work permits and visa's for our staff.

You will be interested to learn too that we have also just employed our first American, his name is Joshua Chubb, he was previously working for Blue Star Jets, he has four years experience in the private jet business and I am certain he will be a great addition to the team here in Fort Lauderdale.

I am planning on coming back to Fort Lauderdale with Wendy in a few months, probably in August, it's going to take us that long just to recover from our over indulgence of your wonderful food and wine. I would really appreciate meeting up with you again when we return because we want to try and spend several months networking and generally getting to meet people, any suggestions, recommendations or referrals from you or your team would be very welcome.

Thank you once again for all your help.

Have a great summer.

Warm regards.

A handwritten signature in blue ink, appearing to read "H. Courtenay", with a flourish at the end.
